"In Christ are hidden all the treasures of wisdom and knowledge"

March 3, 2010

Dear Providence Families,

It is with a strong sense of humility and tremendous gratitude that we report that our most recent Providence Night event was a success!

Thanks to all of you who contributed your time, effort, energy, possessions, and your money in raising funding that will enable us to address the different technological needs of our school. Many of our school family also prayed for this year's event and we are grateful for that, as well.

This year Providence Night raised more than \$20,000 and that money will be used primarily to purchase classroom-level technology that will enhance instruction by our teachers. Our goal is to place a product called SMART boards in as many classrooms as possible as funds are made available.

A SMART board is an interactive "chalkboard" computer-driven device that enables a teacher to bring video, animation, and other digital devices into the instruction of their lesson, making information more palatable and more easily understood.

The PCS Board has created a Technology Subcommittee that is exploring how PCS might better use technology to enhance the classical and Christian education experience.

Thanks again for your support in helping us make Providence even better!

In His service,
Emory Latta
