

What are Providence Projects?

*Providence Projects are inspired gifts
that will have a significant impact on
Providence Christian School.*

Some major gifts that have been given to Providence over the years have helped us develop our classroom technology, sporting venues, and facilities on campus. There will be a small number of projects each year that Providence will work with donors to complete through Providence Projects.

We believe that our athletic programs at Providence will encourage our students to have a deeper understanding of what is true, beautiful, and good in this world.

Thank you for partnering with us in this project.

Soli Deo Gloria.

*Equipping students.
Following Christ.
Changing the world.*

About the Lady Eagles Softball Program:

The Providence softball program has a long history at the school since before we entered into the AHSAA. The program has enjoyed much on field success over the years and in particular, the last several years hosting the Area softball tournament. The team's future continues to look strong as there are several current players who will go on to play softball at the next level.

The purpose of this Providence Project is to improve the safety of our outfielders during play and to upgrade our home field to a level of excellence.

We have previously put in much money and effort to put in lights, to reconfigure the backstop, to add a batting cage, and to upgrade both dugouts to an excellent level. We must now consider leveling the field and reconfiguring the bleachers to finish matching the rest of this great softball venue! Go Eagles!

OUR GOALS FOR THIS PROJECT:

- To professionally level the field.
- To reconfigure the stands to increase the seating capacity.

Fundraising Goals:

- Field – \$32,500
- Bleacher Reconfiguration – \$17,500 (estimated)
- Total – \$50,000

Your gift to the softball Providence Project will:

- Enhance overall player safety
- Add capacity to our seating and allow more fans to come in as our program grows stronger
- Improve the experience for our visiting players and fans on campus

Make a donation online or by mail.

Thank you for your support!

OUR NEEDS:

The softball field is in critical need of upgrade in two major areas as follows:

1. **Professional leveling.** The existing valleys and general slope of the field can be easily discerned from any vantage point around the field.
2. **The bleachers need to be reconfigured to seat more fans.** The overall capacity of our current bleachers is very limited.
